

Ideal Cabinet To Store Waterborne Bottles

MODULAR DESIGN FOR A VERSATILE SOLUTION:

- 2 models available (with or without heating system)
- Built-in heating system (for an easy and quick adaptation to heating version)
- Designed for greater flexibility (accommodates from 3 up to 6 or 7 shelves)

DESIGN:

- Robust conception adapted to the use conditions in body shops (numerous aluzinc parts for easy cleaning operations...)
- Heating device in the cabinet base unit:
- Compact machine
- Effortless adaptation to heating version
- 2 transparent sliding doors provide easy access to paints

HEATING SPECIFICATIONS:

- 2 fans located in the base unit & no separation between lower & upper displays:
 - Amplified & homogeneous heat circulation
 - Ascent ventilated heated air: no hot spot
- Less power requirement (750 W)
- Preset heating parameters
- Maintains a minimum storage temperature of 10°C (50°F) when outside temperatures reach freezing 0°C (32°F)

W Vs 35

New Dosing Lid Generation

- Redesigned pouring spout for continuous paint flow and accurate dosing control
- Just one code number to fit all bottles of 0.5 litre, 1 litre and 2.5 litre
- Friendly use thanks to:
